

MOLDEX[®]
Ideas that wear well.™

Softies[®]

6600 without Cord
6650 with Cord

NRR 33. Highest independently tested NRR.

Bright orange color for easy compliance checks.

Extra-soft, low-pressure foam for comfort and fit.

Tapered shape for easy insertion and removal.

Shaped to fit even very small ear canals.

Non-irritating smooth surface.

Available with or without cord. Cord is securely and cleanly attached.

SOFT COMFORTABLE FIT.

Softies[®] are made of extra-soft, extra light foam. Their tapered shape fits easily in the ear canal. And seals gently and snugly without pressure.

They're so comfortable you'll forget you're wearing earplugs.

EASY COMPLIANCE CHECKS.

The bright orange color of the Softies make checking compliance easy. Available with or without cord. Cords are securely and cleanly attached.

NRR 33 PROTECTION.

Softies offer the highest independently tested NRR 33, making them suitable for most noisy environments. They are independently tested by Michael & Associates, Inc., State College, PA. Not only are they comfortable, but they also provide serious protection.

MOLDEX TECHNICAL ASSISTANCE.

Moldex provides all of the technical assistance required to set up a hearing protection program. For more information, call 800/421-0668 ext. 550 or 310/837-6500 ext 550

MEAN ATTENUATION DATA OF SOFTIES®

Frequency (Hz)	125	250	500	1000	2000	3150	4000	6300	8000
Real Ear Attenuation (dB)	42.3	43.7	46.6	40.9	38.6	44.7	46.9	49.3	48.3
Standard Deviation (dB)	5.0	6.0	5.8	4.2	2.8	3.2	3.3	4.2	3.6

Independently tested in accordance with ANSI S3.19-1974 by Michael & Associates, Inc., State College, PA
EPA Noise Reduction Rating 33 decibels.

! WARNING

Use this laboratory-derived attenuation data for comparison purposes only. The amount of protection afforded in field use often is significantly lower depending on how the protectors are fitted and worn.

Failure to follow all instructions could result in hearing loss or injury.

Failure to obtain a proper fit will reduce effectiveness of hearing protectors and could result in hearing loss or injury.

Softies must only be used as part of a hearing conservation program that complies with applicable local safety and health regulations.

Softies should be used once only, and are not designed for reuse.

Overprotection can be dangerous. The wearer must be able to hear warning signals.

Wearers with hearing loss should exercise extreme caution.

It is the employer's responsibility to ensure that the type of hearing protector and its NRR is appropriate for the user in their particular workplace.

Use caution when working around machinery or other equipment to ensure neck cord does not become caught or entangled.

Failure to follow these warnings could result in serious injury or death.
