HEARING AND RESPIRATORY PROTECTION
Moldex’s expertise is hearing and respiratory protection to keep workers safer. This laser like focus results in an offering of innovative world class products.

- Our core products are manufactured in the U.S.A.
- Moldex is specialized in an age of generalization.

With over 50 patents, Moldex® is dedicated to developing innovative solutions that address the hearing and respiratory needs of industrial and healthcare employees.

Some of our industry leading solutions include:

The unique contoured shape of Meteors® follows the curves of the ear canal to create exceptional all-day comfort while still providing serious protection.

Dura-Mesh® provides bi-directional protection from dirt on the outside and moisture on the inside resulting in masks lasting longer, reducing usage and saving money.

Up to three distinct sizes in industrial masks and five sizes in healthcare to address today’s diverse workforce.

- Exclusive easy-breathing wave design.
- Less resistance, better breathability.
- Flex-Fit® comfort waves flex with you.
- Soft, cloth SmartStrap® is both hangable and adjustable.

Glide’s unique multi-curved stem custom fits, with just a push and a twist.
HandyStrap® and SmartStrap® masks can be conveniently stored around the neck while on a break, keeping them from getting prematurely thrown away or misplaced.

The first disposable earplug dispenser. PlugStations® hang anywhere earplugs are needed to increase compliance and reduce waste.

The first corded earplug dispenser. Moldex now offers a PlugStation to those that require a corded earplug.

The refillable and recyclable EcoStation is easy on the hearing protection budget and easy on the environment.

An air pocket in the tip of our Rockets® reusable earplugs provides incomparable comfort.

The 9000 Series full face respirator’s exclusive overmolded technology reduces weight, parts, maintenance and cost.

All Moldex products and packaging are PVC-Free. A scientific study by Nicholas Anastas, Ph.D. Principal, Poseidon’s Trident LLC, and Matthew Eckelman, Ph.D. at Yale University, Center for Industrial Ecology, confirms that considering the full life cycle of PVC vs. Polyurethane and Polypropylene, the scientific data supports the conclusion that use of Polyurethane or polypropylene are “green” alternatives to PVC and are ecologically preferred. Toxic chemicals associated with PVC disposal have been linked to a variety of health hazards.

Moldex has taken a leadership position among global PPE manufacturers in minimizing our environmental impact. We began with the complete elimination of PVC which is linked to one of the most environmentally toxic materials in landfill disposal and this initiative has now grown into a corporate culture that constantly looks to manufacture innovative products that minimize environmental impact.

Green products and packaging

- Removal of all PVC from our products and packaging.
- Dura-Mesh shell on disposable respirators allows fewer respirators to be used and a reduction in the waste stream.
- Respirator Lockers® EcoStations and Pocket-Paks® are recyclable products.
- Use of recycled paper for all literature and packaging throughout the company.
MORE COMFORT. MORE USE.

• Soft cloth SmartStrap® allows you to adjust for a custom fit.
• Cool and comfortable SmartStrap allows respirator to hang around the neck when not in use.
• Longer use means less waste, fewer respirators used and lower costs.
• Metal-free. (SmartStrap models only)

MORE FLEX. MORE DURABILITY.

• FlexFit® design moves easily with your face and stays in place.
• Pinch-free molded nose bridge.
• Soft foam nose cushion or full face flange.
• Softspun® lining for increased comfort.
• Dura-Mesh® shell resists collapsing in heat and humidity.
• Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1.

MORE AIR. MORE WEAR.

• Exclusive easy-breathing wave design.
• Less resistance, better breathability.
• Larger surface area of the wave design means more airflow.
• More air and more comfort means more wear and compliance.

N95 AirWave 2-Strap

Moldex designed the 7000 and 7800 half masks and 9000 full face series to be the most user friendly respirators on the market. These streamlined respirators feature fewer parts, minimal maintenance, and a wider field of vision. They are all ultra-light weight, durable, and economical, so maximum comfort with extended use is built-in. The award-winning 7000/7800/9000 series add up to simple, comfortable, and economical respiratory protection that’s just plain EASY TO WEAR.

7800 PREMIUM SILICONE HALF MASK

The 7800 Premium Silicone Half Mask has higher resistance to heat and compression, with all the enhanced comfort and durability of silicone.

**COMPLIANCE JUST GOT A WHOLE LOT EASIER**

Full range of gas/vapor cartridges for these common applications and environments: Foundries, paper, pesticides, wood products, printing, pharmaceuticals, agriculture, tobacco, mining, petrochemical, aluminum processing, textiles, glass, chemical manufacturing, paint, laboratories, utilities, cement, fiberglass, coal, fertilizer, petroleum refining, oil or water-based paints, electroplating, embalming, rendering, adhesives, construction, automotive, food processing, mining, transportation industries, ship/boat building, health services, furniture manufacturing, primary and fabricated metal.

Common applications and environments for 7940 P100 filter and 7990 P100 cartridge: For contaminants where an OSHA substance specific standard applies (asbestos, lead, cadmium, inorganic arsenic, IARC) requiring a High Efficiency Particulate Air (HEPA) filter as well as pharmaceutical, battery, nuclear, welding, metal processing. Also for use in environments where oil-based particulates are present.

Common applications and environments for N95 and R95: Welding, grinding, machining, bagging, buffing, cement, metal working, dusty environments, foundry, mining, poultry, sanding, wood, furniture, textiles, waste processing.

Always refer to instructions before using. 100% PVC-Free for a greener alternative.

COOL LOOK, COOL COMFORT

The MX-5, MX-6 and MX-7 (cap mounted) are a cool and comfortable upgrade in earmuffs. The larger cup openings are designed to fit most ear sizes. Exclusive waffled cup foam delivers superior protection in MX-6 and MX-7.

The cushion-ribbed headband allows cool comfort all day long and the non-slip wire makes adjustments easy. The MX series are easy to wear and durable, have a sharp, cool look and increase compliance.

The headband is made of lightweight plastic and metal.

Exclusive bright green color and sleek, curvy shape for a look that workers will want to wear.

100% PVC-Free for a greener alternative.
