

RESPIRATORY AND HEARING PROTECTION FOR THE FOOD PROCESSING INDUSTRY

Moldex has effective solutions to increase comfort, durability and convenience. We strive to deliver products that increase compliance while decreasing overall costs.

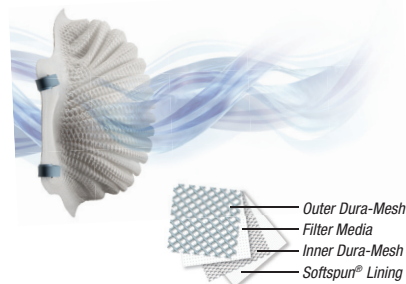

COMFORT THAT LASTS A FULL SHIFT

All Moldex disposable masks feature the exclusive Dura-Mesh® shell that resists collapsing in hot, humid environments so they last longer, helping prevent premature disposal.

AirWave respirators feature a patented wave design for more airflow in and out, without a valve. Easier breathing means more comfort, happier workers and higher compliance.

More Air. More Wear.

STOP UNNECESSARY WASTE

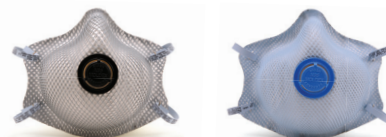

HandyStrap® and SmartStrap® masks hang comfortably around the neck when not in use, preventing premature disposal for overall cost savings.

Longer Lasting = Fewer Masks Used = Lower Overall Cost Of Ownership.

RELIEF FROM NUISANCE ODORS

Moldex offers several masks that feature an added carbon layer for relief from the nuisance levels of organic vapors and acid gases often present in food processing environments.

EASY TO WEAR

Reusable 7000 half mask and 9000 full face series both feature ultra-light weight and fewer parts for minimal maintenance. Long lasting comfort and easy to wear.

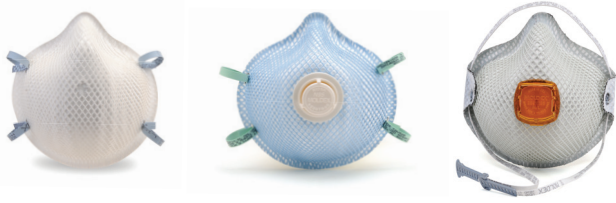

METAL DETECTABLE EARPLUGS

Moldex metal detectable earplugs are available in reusable Rockets® or soft foam SparkPlugs®. The plug and cord are independently detectable promoting confidence and safety. SparkPlugs come either boxed or in our Corded PlugStation®, the first corded earplug dispenser. Ideal for hanging anywhere plugs are needed to give workers quick, convenient access.

Convenience, Compliance, and Cost Savings.

DISPOSABLE RESPIRATORY PROTECTION

2200 N95 Series – Classic 2-Strap
0800710 – Med/Lg **1006313** – Small **1006314** – Low Profile

2300 N95 Series – Classic 2-Strap w/ exhale valve
