

RESPIRATORY AND HEARING THE PROTECTION FOR PHARMACEUTICAL INDUSTRY

Effective solutions to address pharmaceutical industry concerns of hygiene, convenience, and durability while maintaining comfort and cost-savings as top priorities.

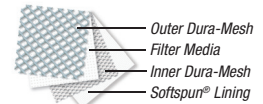

MORE DURABILITY, LESS WASTE

All Moldex disposable masks feature the exclusive **Dura-Mesh shell** that resists collapsing in hot, humid environments so they last longer, helping prevent premature disposal.

HandyStrap® and **SmartStrap®** masks hang comfortably around the neck when not in use, preventing premature disposal for significant cost savings.

Plus, the masks seal without a metal pinching noseband.

Longer Lasting = Fewer Masks Used = Lowered Costs

DESIGNED FOR MORE AIRFLOW

AirWave respirators feature a patented wave design to allow more airflow in and out for cool comfort and easier breathing leading to higher compliance.

All models except the 4200 N95 have the hangable and adjustable cool cloth **SmartStrap**.

Now available in N100, P95 and P100.

More Air. More Wear.

EASY TO WEAR

Reusable **7000 /7800 Series half masks** feature ultra-light weight, an extra wide sealing area, and fewer parts for minimal maintenance.

The 7000 Series also comes preassembled with a variety of cartridges and filter for compliance out of the bag.

The **9000 full face mask** is lighter and has fewer parts than any other popular full face mask thanks to its overmolded lens design.

Long lasting comfort, easy to wear, easy to maintain.

DEPENDABLE HEARING PROTECTION

Easy grip handle and multi-curved stem of **Glide Twist-In** earplugs make them perfect for glove wearers. Plus, the **Glide Foam Twist-In** has the highest independently tested NRR available in a no-roll earplug.

When metal-detectable earplugs are needed, Moldex has the reusable **Rockets®** or soft foam **SparkPlugs®**. In both versions the plug and cord are independently detectable for added safety.

PlugStations® earplug dispensers provide easy, convenient access resulting in higher compliance. And because workers take just one pair at a time, cost savings will increase also. Available filled with both uncorded and corded earplugs.

Convenience, Compliance, and Cost Savings.

REUSABLE RESPIRATORY PROTECTION

7000 Half Mask
1032371 – Small
