

ON A "TIGHT" BUDGET?

Dura-Mesh® Use Less. Save More.

Dirt Dawgs® have two layers of Dura-Mesh® to protect the N95 filter from dirt and grime on the outside and moisture from the inside...the two biggest reasons your workers toss their respirators prematurely.

Dura-Mesh® outer shell keeps dirty hands off the filter so the respirator stays cleaner. Dura-Mesh® inner shell prevents the respirator collapsing from moisture, even in hot, humid conditions.

Take a bite out of your respirator costs with Dirt Dawgs®.
