

# AND THE WINNER BY A NECK

Our HandyStrap® respirators hang comfortably around your neck as you hang onto your savings. So with the HandyStrap® you don't need to throw your respirator away at every break. And that means you use less and they last longer.

The exclusive HandyStrap® with buckle makes these respirators just as comfortable on as they are off. When not in use they hang free preventing workers from pitching respirators

during water breaks, lunch breaks, and any other break they might take. Plus the Dura-Mesh® shell helps keep Moldex® respirators from collapsing in heat and humidity. The end result is a lower overall cost for respiratory protection.

So be a winner and hang onto your savings and try our HandyStrap® respirators. To get more information call 800/421-0668 ext. 512/550, email [sales@moldex.com](mailto:sales@moldex.com) or visit [www.moldex.com/handystrap.htm](http://www.moldex.com/handystrap.htm).
